Public investment in Agricultural sector

*406. SHRI KRISHNA KUMAR BIRLA: Will the Minister of AGRICULTURE be pleased to state:

(a) what is the percentage of decline in the public investment in the agricultural growth rate and how does it compare with years, year-wise;

(b) We are the reasons therefor;

(c) what is the overall agricultural growth rate and how does it compare with the population growth rate;

(d) to what extent the research system has met the technical challenges in the agricultural sector; and

(c) whether Government have reviewed the agricultural policy and strategy to reform the agricultural sector in the country?

THE MINISTER OF AGRICULTURE (SHRI BALRAM JAKHAR): (a) to (e) Gross capital formation in public sector in agriculture-during the period 1987-88 to 1990-91 was as follows:—

Rs in crores

	Current Prices	At 1980-81 prices
1987-88	3063	1461
1988-89	3164	1364
189-90	3054	1189
1990-91	351S	1247

(Quick estimates)

The thrust in public sector investments in agriculture in this period has been on optimising investments already made, rather than making new start with huge investments.

Tre annua] compound rate of growth for production of all crops was 3.33 per cent during 1980-81 to 1990-91. The average annual exponential population growth was 2.1 per cent during the same period.

Strengthening of research and training infrastructure has helped in increasing production and productivity levels of food-grains, other crops as also milk, fish, poultry, etc.

The agricultural policy and sector per-formance has been carefully reviewed while formulating the strategy for the 8th Plan period.
